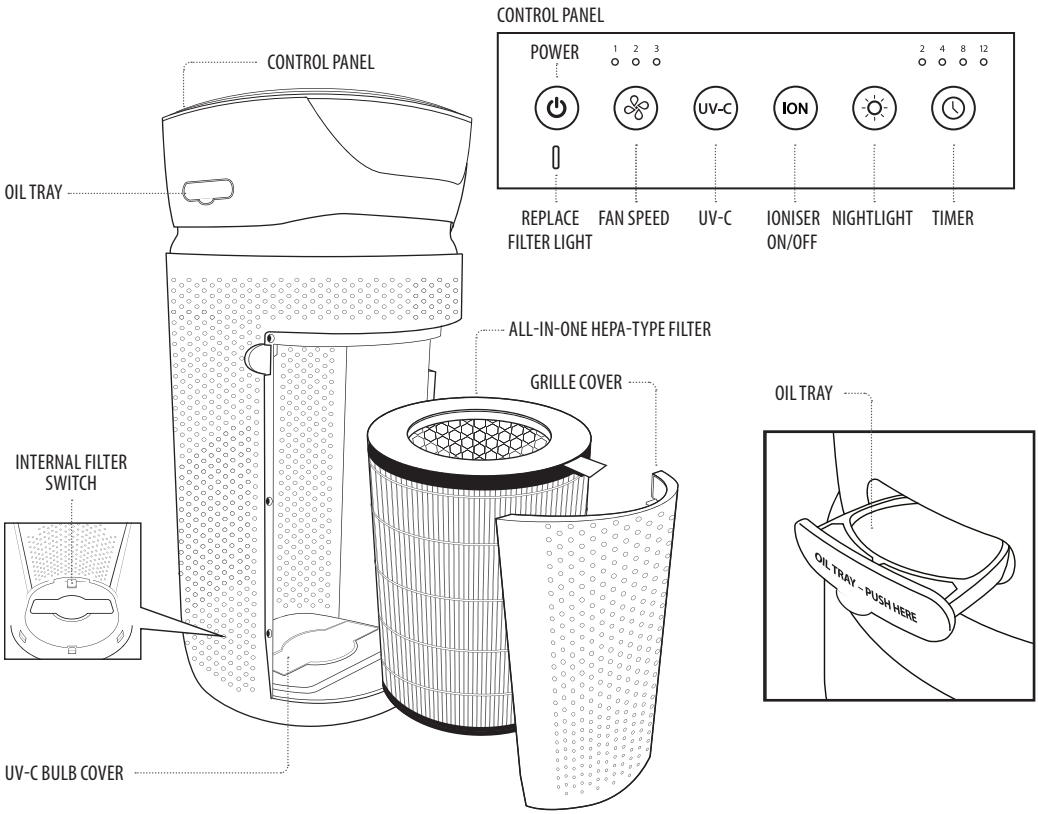
PRODUCT FEATURES



ALL-IN-ONE HEPA-TYPE FILTRATION SYSTEM

HEPA-TYPE FILTRATION
Removes up to 99% of airborne particles as small as 0.3 microns, such as allergens, pollen, dust, germs, pet dander, odour, mould spores, and smoke from air that passes through the filter.

CARBON ODOUR FILTRATION
Reduces household odours and VOCs (volatile organic compounds)/gases as shown by independent laboratory testing.

PRE-FILTER
Captures large particles.

UV-C TECHNOLOGY WITH ON/OFF
When on, the UV-C technology light kills germs, viruses, and bacteria.

IONISER WITH ON/OFF
When on, the ioniser assists in the air purification process.

3 SPEEDS
Low, medium, and high.

BUILT-IN TIMER
Choose from 2, 4, 8, or 12 hours.

REPLACE FILTER INDICATOR
Illuminates when it is time to replace the filter.

SUGGESTED ROOM SIZE
75.8M^2/H / 816FT^2/H. Portable air purifiers will be more effective in rooms where all the doors and windows are closed.

AIR CHANGES PER HOUR
This air purifier will purify the air in a 75.8M^2 / 816 FT^2 room (assuming an 2.43 M/8 FT ceiling) once per hour on high speed in a closed room. The airflow rate is 184.3M^3/H / 6528 FT^3/H.

OIL TRAY
Includes 3 essential oil pads. Use with essential oil (not included) to deliver scent into the air.

OPERATING INSTRUCTIONS

BEFORE TURNING THE UNIT ON

- Take the air purifier out of the box and remove the clear protective plastic bag.
- Place the air purifier on a firm, level surface.
- Plug the power cord into a standard AC outlet.

POWER BUTTON AND FAN SPEED SETTINGS

- To turn the air purifier on, press the power ⏻ button.
- This air purifier has 3 fan speed settings: low (1), medium (2), and high (3). The higher the fan speed setting, the faster the air will be purified. To select or change fan speed, press the fan speed button until the desired setting is reached.

UV-C TECHNOLOGY WITH ON/OFF

The optional UV-C technology kills germs, viruses, and bacteria by penetrating its DNA, resulting in the microorganism's death or the inability to reproduce. Press the **UV-C** button to turn the UV-C technology on. The blue LED will glow. Press the **UV-C** button again to turn the UV-C technology off.

IONISER SETTING WITH ON/OFF

Ion particles have a positive or negative charge that attach to airborne particles, making them easier to be captured by the filtration system. Press the ioniser **ION** button to turn the ioniser on. The blue light will glow to indicate the ioniser is in use. Press the ioniser **ION** button again to turn the ioniser off.

NOTE: Dust particles may accumulate on surfaces around the air purifier when the ioniser is in use. These dust particles can be vacuumed or wiped away with a soft, damp cloth.

NOTE: You may hear occasional popping sounds when the ioniser is used. This is normal.

NOTE: The ioniser produces less ozone than the UL-established limits of 0.05 ppm. Ozone may be harmful around birds and small pets. To prevent ozone buildup, use the ioniser feature in a well-ventilated area.

NIGHTLIGHT

The nightlight has 3 options. Press the nightlight ☼ button once to turn the blue nightlight on. Press again to turn the blue nightlight ring and the display lights off. Press a third time to turn the display lights on.

TIMER

Press the timer 🕓 button until the desired timer setting is lit on the display. The timer 🕓 button will cycle through the following settings: 2 hours, 4 hours, 8 hours, 12 hours, and off. To cancel the timer at any time, press the timer 🕓 button until all timer LEDs are off. The air purifier will run continuously when the timer function is off.

OIL TRAY

Use essential oil (not included) to deliver scent into the air.

NOTE: For use with the included HoMedics essential oil pads only. Do not add essential oils anywhere else in the unit as it may cause damage.

NOTE: Do not leave a filled essential oil pad in the air purifier if it will be out of use for a long period of time.

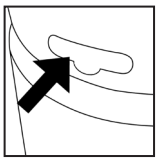
ARE ESSENTIAL OILS SAFE TO USE AROUND PETS?

We should always exercise caution when using essential oils around our pets. Keep all essential oil and aromatherapy products (like diffusers) out of reach of pets. Keep open bottles away from pets to avoid internal consumption. We do not recommend the topical use of essential oils on pets, as they have a strong sense of smell and cannot get rid of the oil if they don't like it or it is disturbing them. When diffusing essential oils around pets, always diffuse in a well-ventilated area and leave an option for them to remove themselves from the space, such as leaving a door open. Every animal is different, so carefully observe how each animal responds when introducing an essential oil for the first time. If irritation occurs, discontinue the use of the essential oil. We recommend seeking medical attention if ingestion of essential oil occurs.

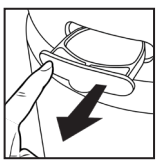
ADDING ESSENTIAL OILS

This air purifier has been certified by the European Centre for Allergy Research Foundation (ECARF) as an allergy-friendly product. Please note that allergy friendliness is no longer guaranteed if the Essential Oil Scent Tray function is used, since essential oils may lead to allergic reactions.

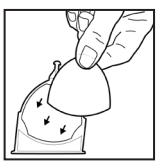
WARNING: Putting oil anywhere but the oil tray will damage the air purifier.



1. The oil tray is located on the side of the air purifier above the nightlight ring.



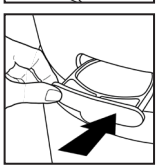
2. Push to open and remove the tray.



3. Place 1 aroma pad (3 included) into the oil tray.

4. Add 5–7 drops of essential oil to the pad. You may use more or less depending on personal preference.

   WARNING: Only place essential oil on the pad and NOT directly into the tray.



5. Place the oil tray back in its compartment and push to close. The scent will start automatically when the air purifier is turned on.

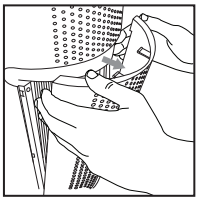
FILTER REPLACEMENT

REPLACE FILTER LIGHT

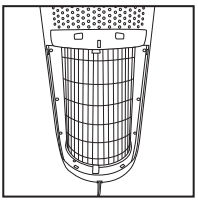
The replace filter light illuminates when it is time to replace the HEPA-type filter based on the air purifier's hours of use.

REPLACING THE HEPA-TYPE FILTER

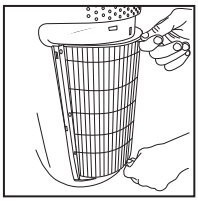
For optimal performance, replace every 12 months under normal usage conditions.



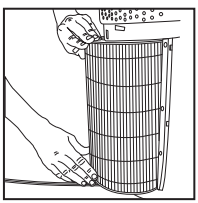
1. Unplug the air purifier. Pull the indents on each side of the grille cover.



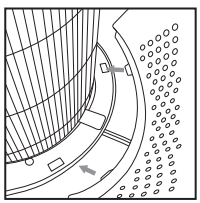
2. Remove the grille cover and set aside.



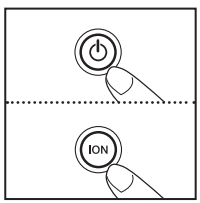
3. Pull the tabs to remove the old filter.



4. With the filter tabs facing outward, insert the new HEPA-type filter.



5. Place the tabs at the bottom of the grille cover into the base of the air purifier. Gently push the grille cover until it snaps into place.



6. Plug the power cord into a standard AC outlet and press the power ⏻ button Press and hold the ioniser **ION** button for 3 seconds to reset the indicator.

UV-C BULB REPLACEMENT

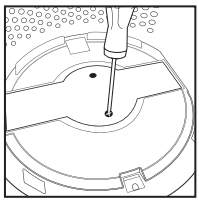
REPLACING THE UV-C BULB

The UV-C bulb is designed to last for approximately 10,000 hours of use. The UV-C button on the control panel will flash RED when the UV-C bulb burns out and needs to be replaced. The UV-C button will change to blue once the bulb has been replaced.

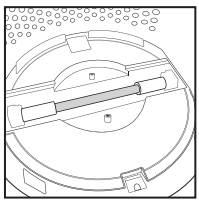
NOTE: The air purifier will continue to operate without the UV-C function when the UV-C bulb burns out.

CAUTION: Do not operate the air purifier without the protective UV-C bulb cover.

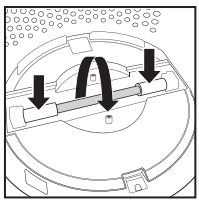
CAUTION: Unplug the power cord before servicing or replacing the UV-C bulb.



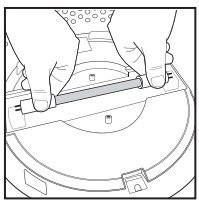
1. Unplug the air purifier and remove the HEPA-type filter. Using a Phillips-head screwdriver (not included), unscrew the 2 screws located on the UV-C bulb cover.



2. Remove the cover to expose the UV-C bulb.



3. Gently push from the sides and rotate the UV-C bulb to remove.

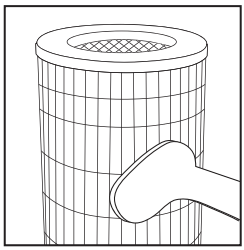


4. Remove and replace the UV-C bulb. Re-install the UV-C bulb cover, HEPA-type filter, and grille cover.

NOTE: The UV-C bulb contains mercury (Hg).

CLEANING & MAINTENANCE

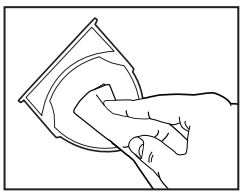
CLEANING THE PRE-FILTER



NOTE: For best performance, vacuum the pre-filter once a month under normal usage.

1. Unplug the air purifier.
2. Remove the HEPA-type filter as described in the Replacing the HEPA-type Filter section.
3. Vacuum the outside of the HEPA-type filter using the brush attachment of your vacuum cleaner, cleaning it thoroughly.
4. Place the HEPA-type filter back into the air purifier and close grille.
5. Plug the power cord into a standard AC outlet.

TO CLEAN THE OIL TRAY



Open the oil tray and remove the pad. Essential oil pads should be changed when switching to a different essential oil scent. If continuing to use the same scent, set the essential oil pad aside for reuse. Wipe down the inside of the oil tray with a soft cloth. Place the essential oil pad back in the tray and close.

NOTE: Leave the essential oil pad out of the oil tray when storing.

WARNING: The appliance is only to be used with the recommended vaporising medium. The use of other substances may give rise to a toxic or fire risk.

FOR BEST PERFORMANCE

- NEVER use water or any household cleaners or detergents to clean the HEPA-type filter.
- Clean off the outside of the unit with a dry cloth as needed.
- NEVER use water, wax, polish, or any chemical solution to clean the outside of the unit.
- Clean off the grille cover using a damp cloth or the brush attachment of your vacuum as needed.
- Vacuum the pre-filter monthly under normal usage conditions.
- Replace the HEPA-type filter every 12 months under normal usage conditions.
- Always use a genuine HoMedics replacement filter for optimal performance.

Cover & screws - APUVCCV

TROUBLESHOOTING

PROBLEM	POSSIBLE CAUSE	SOLUTION
Unit will not operate	• Unit is not plugged in • Power button not pressed • No power to unit • HEPA-type filter is not installed correctly • Grille cover is not installed correctly	• Plug unit in • Press the power button to turn the power on • Check fuses, try a different outlet • Reinstall the HEPA-type filter • Reinstall the grille cover
Reduced airflow	• The back grille may be blocked • Pre-filter needs vacuuming • The HEPA-type filter needs to be replaced	• Check to make sure nothing is blocking the back grille and air outlet • Vacuum the pre-filter with the brush attachment of your vacuum cleaner • Replace the HEPA-type filter
Reduced odour removal	• The HEPA-type filter needs to be replaced	• Replace the HEPA-type filter
Excessive noise	• The unit is not level	• Place the unit on a flat, level surface
Replace filter light remains lit after filter replacement	• The replace filter indicator needs to be reset	• Press and hold the ioniser button for 3 seconds until the replace filter light turns off
Display lights are off	• Nightlight setting	• Press the nightlight button until the desired lights are on/off
